- City of Atlantic Beach
- Municipal Parks
- ICW Tidal Marsh
- JEA-Owned Parcels
- JEA Transmission Line Corridor

**OFF-STREET BICYCLE FACILITY**

These bicycle facilities are not incorporated into the paved roadway, but are constructed or proposed to be constructed separately. They are normally at least 8 feet wide and either asphalt or concrete.

**ON-STREET BICYCLE FACILITY**

These bicycle facilities are incorporated into the paved roadway, and are constructed or proposed to be constructed as bike lanes or 3-foot or greater paved shoulders. They may have high traffic volume.

**CYCLING ROUTE**

These roads do not have on-street bicycle facilities, but are used by experienced cyclists primarily due to connectivity between locations. They may have high traffic volume or narrow road width.
