

HANDICAP PARKING

Valid Handicap Parking Permits & License Tags

Must be properly displayed (with expiration date visible) and only used when vehicle is transporting the person to whom the displayed permit is issued. If the permit holder is not exiting the vehicle, then the permit may not be used.

On-Street Metered Parking

On-street metered parking is defined as when you park your vehicle on the street, anywhere on or along the curb. As per Florida law 316.1964, drivers of vehicles displaying a disabled parking permit or license plate **are allowed to park for free up to four (4) hours in any on-street metered space, unless signage posted restricts the time to park.** For example, if the signage establishes a three-hour time limit, then the driver is allowed to park for a maximum of three hours. After the time limit expires, the driver must deposit money into the parking meter or move the vehicle from the parking space.

For information on obtaining/renewing a disabled parking permit, please visit the [Florida Department of Highway Safety and Motor Vehicles'](http://www.flhsmv.gov) website: www.flhsmv.gov.
