NEW ENERGY REPORTING FORM REQUIRED BULLETIN

The Florida Building Code-Energy Conservation (FBC-EC), Sixth Edition, now requires an "Energy Reporting Form" for all new residential buildings. All building departments are required to collect the form when plans are submitted for a building permit and the departments will then forward the forms to the State Building Commission on a quarterly basis. The "Form" is actually just an additional copy of the front page of the Florida Energy Sheets, already required with the permit application.

Starting December 31, 2017, please make an extra copy of the signed front page of the Florida Energy Sheets, write "STATE" at the top, and include it with the normal Energy package.

Florida Building Code-Energy Conservation.

- **R103.1.1.2 Code compliance certification.**

The building's owner, the owner's architect or other authorized agent legally designated by the owner shall certify that the building is in compliance with the code, as per Section 553.907, Florida Statutes, prior to receiving the permit to begin construction or renovation.

- **R103.1.1.2.1 Reporting to entity representing the Florida Building Commission.**

A reporting form shall be submitted to the local building department by the owner or owner's agent with the submittal certifying compliance with this code. Reporting forms shall be a copy of the front page of the form applicable for the code chapter under which compliance is demonstrated.

- **R1 03.1.1.2.1.1 Reporting schedule.**

It shall be the responsibility of the local building official to forward the reporting section of the proper form to the entity representing the Florida Building Commission on a quarterly basis.
