COMPENSATION

Homeowner's Association or Architectural Review Committee approval required for the proposed construction

☐ YES ☒ NO (if yes, this must be submitted with any application for a Building Permit)

Statement of facts and site plan related to requested Variance, which demonstrates compliance with Section 24-65 of the Zoning, Subdivision and Land Development Regulations, a copy of which is attached to this application. Statement and site plan must clearly describe and depict the Variance that is requested.

PROVIDE ALL OF THE FOLLOWING INFORMATION

(all information must be provided before an application is scheduled for any public hearing):

1. Accurate, to-scale boundary survey prepared by a registered land surveyor within one year of the date of submission that shows the location of all existing improvements.
2. Survey, plat or new site plan showing all proposed additions and/or improvements added to the drawing, to scale (on 11"x17" paper or smaller).
3. Proof of ownership (copy of deed or current property tax notification).
4. Copy of any previous variance and/or conditional use approval letters.
5. If applicant is not the owner, notarized written authorization from owner is required.

"In lieu of signed, sworn and notarized signatures of the property owner, agent and/or contractor, and under penalties of perjury, I declare that I have read and examined the foregoing application and that the facts stated in it are true and correct."

The following paragraph sets forth reasons for which a Variance may be approved, please check the circumstances that apply to your request and briefly describe them in the space provided.

Grounds for approval of a Variance: A Variance may be granted at the discretion of the Community Development Board, for the following reasons.

- ☐ 1. Exceptional topographic conditions of or near the property.

- ☒ 2. Surrounding conditions or circumstances impacting the property disparately from nearby properties.

This property is located within a floodplain that is connected to an infinite water body (i.e. the Intracoastal Waterway). For this reason, placing fill within the flood zone on this property will not have an adverse impact on the storage capacity of the floodplain.

- ☐ 3. Exceptional circumstances preventing the reasonable use of the property as compared to other properties in the area.

- ☐ 4. Onerous effect of regulations enacted after platting or after development of the property or after construction of improvements upon the property.

- ☐ 5. Irregular shape of the property warranting special consideration.

- ☐ 6. Substandard size of a Lot or Record warranting a Variance in order to provide for the reasonable use of the property.

- a. Approval of a Variance. To approve an application for a Variance, the Community Development Board shall find that the request is in accordance with the preceding terms and provisions of this Section and that the granting of the Variance will be in harmony with the Purpose and Intent of this Chapter.
- b. Approval of Lesser Variances. The Community Development Board shall have the authority to approve a lesser Variance than requested if a lesser Variance shall be more appropriately in accord with the terms and provisions of this Section and with the Purpose and Intent of this Chapter.
- c. Nearby Nonconformity. Nonconforming characteristics of nearby Lands, Structures or Buildings shall not be grounds for approval of a Variance.
- d. Waiting period for re-submittal. If an application for a Variance is denied by the Community Development Board, no further action on Another application for substantially the same request on the same property shall be accepted for 365 days from the date of denial.
- e. Time period to implement Variance. Unless otherwise stipulated by the Community Development Board, the work to be performed pursuant to a Variance shall begin within six (6) months from the date of approval of the Variance. The Community Development Director, upon finding of good cause, may authorize a one-time extension not to exceed an additional six (6) months, beyond which time the Variance shall become null and void.
- f. A Variance, which involves the Development of Land, shall be transferable and shall run with the title to the Property unless otherwise stipulated by the Community Development Board.

AND APPROVAL FOR VARIANCE FOR 590 JASMINE ST.

In addition, providing compensating floodplain storage volume for areas that are filled below the

Base Flood Elevation (100-year flood stage) is desirable in *riverine* Special Flood Hazard Areas (SFHA). This is due to the fact that fill in *riverine* flood hazard areas take up floodplain storage capacity and can eventually result in higher flood waters. In this case, the property is located in a SFHA that would be flooded due to inundation from the ICW and not from *riverine* upstream drainage. Minor quantities of fill associated with residential development in the floodplain adjacent to the ICW will not affect the 100-year flood stage.
