628	They are individuals from the Old Guard, don't want anything to ever change to the new who may want to change everything. Maintaining a happy medium would be a win-win for everyone. As a designer, the city permitting and codes has got to get better, more efficient and less restrictive. They need to take each lot and build on a case by case business. We had a case on 7th street where we were adding expensive trees that are going to eventually hurt the sidewalks in place - there were too many and too close to the sidewalk, but the " code said..." It makes no sense to me - must move back toward common sense decisions. Also the permeable surfaces thing really seems to be so subjective and not at all uniform across the board. We have no parking yet pay premium prices for our homes. If we could be allowed to put more paving, pavers or pebbled drives, the streets would be clearer of cars and far less congested. FREE PARKING FOR LOCALS/ PROPERTY OWNERS at both Town Centers, not just AB.	9/24/2021 11:50 AM
